# DUAL MIKE WIRELESS

THE BLUETOOTH MICROPHONE  
OF THE CB TALK COMMUNITY

Radio and CB. Dual Mike

# DUAL MIKE WIRELESS

The DUAL MIKE WIRELESS presents itself as a classical CB microphone, but is much more.

With this compact device you talk and listen without distance limitations, interfacing it with the CB TALK App.

Inside it there is a 3W speaker that turns it into a real "speakerphone" for perfectly safe use while driving.

## DUAL MIKE WIRELESS

Lose the wire... but remain connected!

### WHY BUY IT?

Because it represents the future of communication between users who live more than others the road, thanks to the possibility of creating a "mixed" system by interfacing the new microphone with the MIDLAND "CB radios"\* (analogue mode) and your smartphone (digital mode).

\*Bluetooth-ready CB

- M10
- M20
- M-Mini

### PLUS

Possibility of customising the Light Ring  
5 colours available.

- Dimensions: 103x65x42 mm
- Weight: 150.3g

## COMPLIANCE

Compliant with the RE-D  
2014/53/EU regulation

## HOW DO YOU USE IT?

Connected via Bluetooth to your smartphone, the DUAL MIKE WIRELESS can manage normal phone calls, allow listening to music and, through the CB TALK APP, developed by MIDLAND and downloadable for free (currently over 500,000 drivers have downloaded it all over the world), talk with friends and colleagues - in turn connected with this application - without distance limitations.

The interface that appears on the screen of the APP closely resembles the controls on the popular MIDLAND ALAN 48 "CB radio" and the functions, even if digital and advanced, look really very friendly. APP support becomes indispensable on many occasions. The possibility of releasing geolocated "buoys" through voice messages in which to signal any road problems such as queues due to accidents, closed junctions, speed cameras and so on to other users, appears much appreciated.

To recharge it, in addition to the classic USB cable supplied, MIDLAND offers as an option a very convenient **Docking Station**, which can be positioned wherever you want inside the cabin, thanks to the three different supports supplied, and capable of providing the "microphone" with wireless charging.

## PACKAGING AND CODES

Microphone, recharging USB cable, microphone holder with adhesive support.

Code C1363

Radio and CB. Dual Mike

# DUAL MIKE WIRELESS

## POSSIBLE TARGETS AND USES

For **EX-CB users**

For the **truck driver** who does not have a CB radio.

For **campervanners** who do not want to drill the dashboard to install the CB radio.

For **off-road drivers** who want to communicate with other off-road drivers during trips.

For **motorists** who want to amplify their music.

DMW allows you to use CB TALK APP with great ease.

Application

# CB TALK APP

A COMMUNITY ALWAYS ONLINE

CB TALK is the revolutionary mobile application that lets you talk to other users in analogue or digital mode.

DOWNLOAD IT!

With CB TALK APP you talk to the whole «ON THE ROAD» community.

- TRUCK DRIVERS
- OFF-ROADERS
- CAMPERVANNERS
- DRIVERS
- AMATEUR RADIO OPERATORS

And many more who spend entire days driving.

You can select all the users who speak your same language without distance limitations by viewing their position on the map.

Users are geolocated and visible on the map to understand and see who transmits and from where. It is also useful to ask for traffic information relative to your destination.

Free downloadable app for Android and iOS and, using the data roaming package offered by your telephone operator, the communication allows you to overcome any distance.
